Saint-Louis School Project

Thank you for your continued prayers and financial support.

**Account #256395
School Project #4573
Radio Project #4611**

The first floor of the new school has been built. In the past week the second floor walls have gone up and the doors and windows for the building have been ordered.

The most challenging part of the building project thus far was the pouring of the first floor roof. Starting at 5am, 25 men shoveled, mixed, and poured the cement roof; all the while shoveling the mixture up two levels. It was necessary to finish the job all in one day so the men worked non stop until it was completed later that evening.

The back lot of the property has also been leveled this week in order to begin the process of building walls around the property. The first two floors will be completed in time for the school to open in October of 2008. In July a work team from churches in Valentine Nebraska and Omaha South Side will be traveling to Senegal to help with construction.

Radio Leer Gi in Diourbel

We are in the process of getting Leer Gi radio spots on the air across as much of Senegal as possible. The interior town of Diourbel will become the newest city to receive Leer Gi starting the first week of July. Please pray that more towns will be added until all of Senegal is covered with this broadcast. Visit the Leer Gi web site at www.leergi.org.

Web Site Update

The Davis Family web site has been updated with new photos from the construction site, the Samaritan's Purse outreach as well as images from Senegal. The site also includes all the most recent ministry information as well as family background and stories from our daily experiences. Please visit www.davis4insenegal.org.

Prayer Requests

- The new land needs to be hooked up to city water. This is a long and costly process.
- The time for electricity hook-ups is going near; please pray that the process will be quick and smooth.
- Please continue to pray for Pastor Lamine as he finishes his director training exams in July.
- The new school teachers will be moving to Saint-Louis in August. Please pray that they are able to find affordable housing close to the school.
- Please pray for the children who will be attending the school in the fall. We need at least 15 children per class to enroll for the Grand and Middle sections of the preschool.
- Travel mercies for the Valentine/South Side Nebraska team that is coming to work on the new school.
- There has been a gas bottle shortage the last week. Many people use these to cook meals. Please pray that the country would continue to import sufficient supplies.
